### What to take to Argentina trip

Few VERY important things: Passport valid for at least 6 months, reciprocity fee receipt (2 copies) of US\$ 160., a lock for the locker (if you have few, great), hidden wallet-belt and, even better, have one fake wallet, some cash, besides the fees for attractions that are already ordered, have about US \$ 300-400. There are plenty of banks and bancos, if you have a need you can take extra of your account.

**What you wear in the city, it is up to you.** It is a big cosmopolitan and people are hip and beautiful. Where what you love, do not over-dress or under-dress. Imagine, you are going out for coffee in the City where you live. The key – comfortable shoes, where what you know well, because it will be a lot of walking. The scarf or some kind of hat for town might be useful but not necessary. A 10-day forecast for BA as of now is average +70-80 F with very few showers day or night. It is a vacation, I'm telling ya! :P

**However, we do have to be seriously ready for the Patagonia part of the trip. Few general tips:**

- NO cotton because cotton does not dry well and you might get cold.
- Wear layers, it is always better to take few layers off than to have an only option to be hot or cold.
- Anything you take for this part of your trip, you will have to carry on your shoulders besides the camping gear and food supply for 2 days.
- The right clothes will make your trip enjoyable no matter what. Be ready.

Jeeeee, I hope I have remembered everything... If something, I will still let you know. If you have questions, please, ask now. The countdown to this amazing trip begins! See you, guys, there!
